HWN TOKEN & NEXUSWELL FOUNDATION

A Vision for Innovating Medical Welfare for Low-Income Classes and Creating a Sustainable Healthcare Ecosystem

NEXUSWELL Foundation Business Overview

Foundation Establishment Background

- The NEXUSWELL Foundation is a non-profit foundation established in Japan in 2025 to improve health and enhance medical welfare for low-income and vulnerable groups excluded from medical benefits.
- We realize the common good of humanity by lowering the threshold of advanced medical technology and establishing an online and offline healthcare ecosystem.

Purpose of HWN Token

- The HWN Token is a utility token managed and operated by the Foundation's Business Board of Directors, used to efficiently raise funds for the foundation's operations and serve as a payment method within the platform.
- We establish a sustainable medical support welfare model through a virtuous cycle of token self-sufficiency and ecosystem profits

Vision & Core Values

Transparency

Composed of a multinational Board of Directors with 5 or more members from 3 or more countries, we guarantee reliable token and business operations by blocking corruption through transparent, democratic governance.

Inclusion

Under the belief that **"All human beings have an equal right to health"** regardless of income level, we prioritize supporting low-income classes in medical blind spots.

Innovation

We popularize expensive specialized medical services that are difficult for the public to access (such as stem cell therapy) and significantly reduce financial burdens by utilizing partner networks and the token ecosystem.

Foundation Core Business Areas

Expert-User Connection Platform:

Provides integrated healthcare consultation guides remotely connecting health experts with users.

Customized Health Programs

Hosts member-exclusive health management events such as regular seminars, fitness, and wellness workshops.

Discounts on High-Cost Specialized Medical Care:

Secures a network of partner hospitals to support subsidies and discounts for advanced treatments such as stem cells.

Low-Income Health Promotion Center:

Establishes offline centers to perform free/lowcost basic check-ups and chronic disease management.

Health Product Commerce:

Distributes verified health functional foods and wellness products, reinvesting profits into medical funds for low-income groups.

Popularization of Advanced Medical Treatment

Innovating Accessibility to Stem Cell Therapy

- Advanced treatments such as stem cell therapy are difficult for medically vulnerable groups to access due to excessive cost burdens.
- The NEXUSWELL Foundation builds a network of global affiliated medical institutions to establish a system for HWN token-based payment discounts and procedure subsidies, leading the popularization of advanced medicine.

Democratic Governance System

Multinational Board Composition

To prevent arbitrariness by a single nation or group, the Board of Directors is composed of experts from at least 3 different countries. We secure global scalability and fairness as an international non-profit foundation through global perspective and mutual checks.

Independent Operations & Corruption Prevention

Composed of 5 or more professional directors, we block corruption and implement transparent fund execution according to board resolutions. All HWN tokens and foundation revenues are transparently executed and disclosed in accordance with the approved roadmap.

Phased Business Roadmap

Phase

01

Platform & Business Foundation (2026–2027 / Short-Term)

-  Open integrated online/offline platform
-  Vitalize commerce business
-  Conduct member-exclusive health promotion programs

Phase

02

Center Establishment & Support (2028–2029 / Mid-Term)

-  Establish the 1st Low-Income Health Promotion Center
-  Expand the stem cell treatment partner network
-  Full-scale implementation of high-cost medical discount support

Phase

03

Global Network (2030 and beyond / Long-Term)

-  Expand global hubs for Health Promotion Centers
-  Complete support network for medically underserved groups
-  Build a sustainable welfare ecosystem

HWN TOKEN

ECOSYSTEM & UTILITY

Core Payment Method of Ecosystem

HWN Token is used as the primary payment method for all services and distributed products within the NEXUSWELL ecosystem:

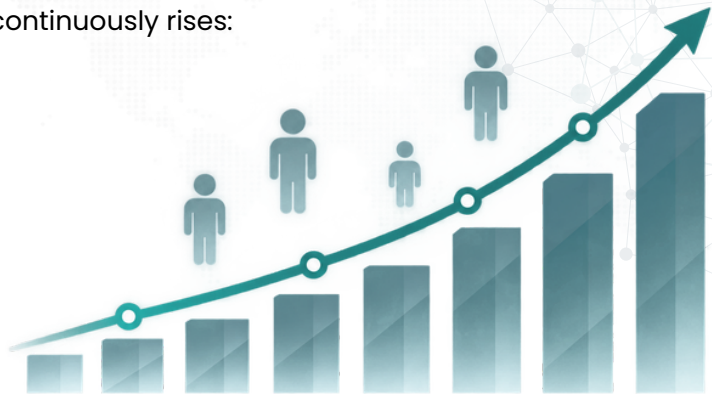

-  Purchase health functional foods and medical auxiliary devices
-  Participate in remote healthcare consultation and health programs
-  Discount payments for treatments such as stem cell therapy at affiliated hospitals

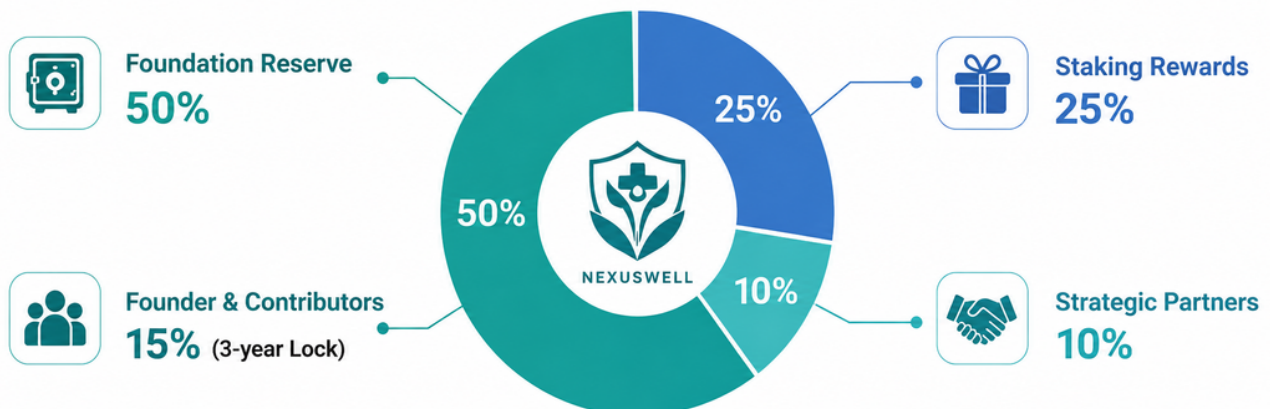

Increased Demand & Value Enhancement

As the foundation's business expands and platform users grow, actual demand for HWN Token usage continuously rises:

-  Form token demand based on practical utility
-  Phased lock-up policy according to roadmap execution
-  Promote value stability and long-term growth

Token Structure & Distribution Plan

HWN TOKEN

ISSUANCE SPECIFICATIONS

Category	Details
Token Name / Symbol	HWN Token / HWN
Total Supply	3,000,000,000 HWN (3B)
